## FOREST FIRE PREVENTION IS EVERYBODY'S BUSINESS

New Hampshire faces a continuing challenge in its forest fire problem—97 percent of all our forest fires being man-caused and preventable—a serious indictment of interest in our own welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires—all result in serious loss of property, disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort—The rules are simple.

1. Don't burn at home—use your town dump and avoid all fire problems.
2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fire places and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.
3. Be sure that all lighted material—cigars, cigarettes and matches—are completely out before discarding them. Use ash trays in automobiles.
4. Make certain that your debris, camp and cook fires are completely out before leaving them.
5. Insist that others be careful and comply with burning requirements.
6. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER—The fire you prevent might be the one which could  
burn YOUR property.

REMEMBER FOREST FIRE PREVENTION is  
EVERYBODY'S BUSINESS and our MOST  
IMPORTANT UNDERTAKING

## LIBRARIAN'S REPORT

This year we have received 190 books in all, 161 of these through our state aid grant. The state aid books are for the junior high to young adult group, and is directly responsible for an increased circulation in Non-Fiction.

Our applications for state aid in 1958 was refused because so many more libraries submitted applications; lack of an increase in our book fund; and having received a grant two years in succession. This in no way means we cannot obtain state aid again. It is our plan to gain at least one more year state aid in the adult field. This would cover the library with a basis of new material which can be kept up to standard with an adequate book allowance.

The library Non-Fiction was weeded of 544 books relieving the need of shelf room to some extent.

There was an increase of circulation this year with Juvenile 1659 and adult Fiction 386 and Non-Fiction 337. Total circulation 2382, not counting the many special books requested from the state library. The bookmobile contributes 165 to 180 books every eight weeks and helps the circulation a great deal. It is a fortunate exception for a library this size to have a record collection, and it has circulated 7 albums.

The library hours are from 2-4 on Wednesday afternoons and 7-9 on Saturday evenings the year around. To make the return of books convenient for all, it is planned to add a book drop.

I wish to express my appreciation for the direct help, cooperation, and patience extended to me during the year.

Respectfully submitted,

MADELYN L. QUINN

Librarian

## SUPERINTENDENT'S REPORT

To the School Board and Citizens of Temple:

I respectfully submit my first annual report as your Superintendent of Schools.

### Staff

We have been very fortunate in retaining the services of the entire staff of last year, Miss Helen Stone, Principal and teacher of grades 6 through 8; Mrs. Alice Hammond, teaching grades 4 and 5 and Mrs. Lucy Carter teaching grades 1 through 3. Miss Ethelyn G. Edwards continues as Music Supervisor and teacher, Miss Sybil M. Beatham as School Nurse, Dr. Claire Cayward as School Doctor, and Mrs. Robert Adams as School Lunch Manager.

### Instruction

The townspeople and children of Temple are very fortunate in being able to hold the instructional staff of the school for another year. The educational growth under such a stable situation makes progress an every day reality. A veteran teacher working from year to year with children and parents she understands and knows, can bring into being the kind of improvement all educationalists are searching for.

A great deal of credit should be given to parents and the townspeople of Temple for they have set a favorable climate for these teachers to work in. Either knowingly or unknowingly, the citizens have paid these teachers enough salarywise to make it materially worthwhile for them to continue in Temple. They have supported these teachers in their actions and helped to place them in a position of respect and confidence within the community. Undoubtedly parents have made it a point to commend the staff for deeds well done and for special interest taken in individual children. This happy, healthy climate has spurred teachers to even greater effort, all helping to achieve the fundamental goal of better education for children. It is felt that it can honestly be said that Temple has a happy and good school.

## Building and Grounds

Except in very wet weather our school and grounds are in good condition. Some difficulty has been experienced this past winter with water within the basements of the building. The exact source of the difficulty has not as of this date been determined, but when it is, definite action must be taken to rectify the difficulty once and for all. Several times a high state of disturbance has been brought about by having the basement flooded upon arrival in the morning.

One condition exists which should be taken care of for the convenience of anyone going to the school by car and on foot. Specifically, action should be taken to grade and black-top the approach to the school, from the School House Road. This action will prevent the hazardous condition which exists at certain times of the year, when mud makes entrance into the school area almost impossible.

During this past year an incinerator has been placed in the boiler room, making it much easier for children to carry out their janitorial duties. It is hoped that the townspeople fully appreciate the great saving that has been effected by the town, through this pupil-service program. Not only that, but also the fact that funds earned have been turned back to the town in the form of improvements to the school. More fencing has been purchased by the children in the hopes of completing this worthwhile program. It is hoped that interested parents will assist in the carrying out of this worthwhile project.

The shades in the upper room have been in a poor state of repair for some years, and provision for these has been made in the budget.

In order to properly maintain our building it is necessary to periodically make general repairs, rather than wait and have repairs made all at once. This plan tends to keep the budget at a single level in this area over a period of several years. In keeping with this plan, within the budget, provisions have been made for painting the upper room and the girls' basement. These two areas seemed most in need of attention.

The amount of money set aside to restore to a proper state, the inside of the building, has never been realistic. This item has been increased to \$350 to properly maintain asphalt tile and wooden floors within the plant during the summer maintenance project.

## Finance

The School Board's Budget for 1958-59 calls for an appropriation of \$34,000.55, an increase of \$329.71 over last year's appropriation of \$33,048.34 and deficiency appropriation of \$622.50. This increase has come about as a result of three basic increases in the budget. First an increase in the costs of tuition (\$952.00). This increase is primarily due to increased costs of tuition and increased numbers attending High School. The cost of tuition at Peterborough and Appleton Academy will go to the state average of \$367 in 1958-59, this compares with \$354 and \$325 respectively, being charged this year. Tuition paying towns can look to a continued increase in this item since the state average costs have continually gone up.

This year several children transferred to Wilton High School, and undoubtedly will continue there during their high school years. Tuition cost for 1958-59 at Wilton will be \$285 per pupil.

A second area of major increase lies within the item of Teachers' Salaries. This item has increased \$625 and is quite necessary to maintain our average salary near the level of adjacent towns. If we can hold our fine staff with these slight increases we shall be indeed fortunate.

A final area of increase lies within the area of transportation, this increase being due, according to transporters, to increased costs of operation.

Items #19 and #20 of the budget have changed, as they have comparably in all budgets of the state, to reflect the change in the teachers' retirement system, from a single program to a dual one involving teachers retirement and social security.

Estimated income for 1958-59 is some \$610.80 above this current year. This is due to a larger balance being anticipated for the end of the year, \$1,000. This balance has resulted from fewer youngsters attending High School than anticipated, and some saving resulting from their transfer from Peterborough to Wilton schools. An additional amount of income was also received in the form of State Building Aid, since the last Legislature voted to increase the State's share of principal payments from 20% to 30%. As a result of this increased income, the actual estimated assessment for 1958-59 is less than estimated assessment of 1957-58 by \$281.09.

## Conclusion

I wish to thank the School Board and staff for their fine co-operation and assistance in continuing sound education in Temple.

KENNETH A. SARGENT

Superintendent of Schools

## SCHOOL NURSE REPORT

During the school year 1956-57 I made eleven visits to the Temple School. Clinics were held during the year—two polio clinics under the supervision of the State Health Nurses, one in September and one in March, 1957. The program was completed for those children who also had the vaccine in 1955.

I assisted Dr. Cayward in examining the pupils and kept records of all defects found and sent notes to parents.

Weighed and measured all children during the year. By means of the Telebinocular examined the eyes of the children and by the use of the single Audiometer screened the children for loss of hearing. Two children were found with poor vision and referred to their local optician for treatment. No hearing loss was determined on the one test.

Defects found by Dr. Cayward:

Enlarged tonsils	8
Defective teeth	18
Enlarged glands	1
Upper respiratory infection	2
Asthma	1
Overweight	4
Acne	3
Cardiac Murmur	1
